control or extinguish fires in coal formations. There are no cost sharing requirements for this type of project.

[59 FR 52378, Oct. 17, 1994]

#### § 880.13 Project implementation.

(a) Under cooperative agreements with States or Indian tribes having an approved AML reclamation plan:

(1) States or Indian tribes will design, plan, and engineer a method of operation for control or extinguishment of the outcrop or underground mine fire, and will execute the project through a project contract, or, if the work is to be done in phases, a series of project contracts.

(2) If OSM assistance is required, OSM will be reimbursed by the State or Indian tribe for all costs incurred, including OSM employees' time.

(b) In States and on Indian lands under the jurisdiction of tribes not having approved AML reclamation plans and on Federal lands, OSM has the authority to design, plan, and engineer a method of operation for control or extinguishment of the outcrop or underground mine fire, and will execute the project through a project contract, or, if the work is to be done in phases, a series of project contracts. OSM, may, at its discretion, delegate authority to perform this work to States or Indian tribes or other Federal agencies.

#### § 880.14 Administration of contributions.

Financial contributions made by a State or Indian tribe, local authorities, or another Federal agency will be deposited in a trust fund in the Treasury of the United States. These contributions can be withdrawn by OSM and expended by the organization executing the project (OSM, a State, Indian tribe, or another Federal agency) pursuant to the cooperative agreement as necessary in performance of the project work. Withdrawals and expenditures from the trust fund will be made only for costs connected with the project. Any part of the money contributed by a State, Indian tribe, local authority, or another Federal agency for an individual project that remains unex-

#### § 880.15 Assistance by States or Indian tribes, local authorities, and private parties.

States Indian tribes, local authorities, or private parties, as may be appropriate in each particular project, and without cost or charge to project costs may:

(a) Provide assistance in planning and engineering the project, as requested by the organization executing the project;

(b) Furnish best available information, data, and maps on the location of the project and the location of water, sewer, and power lines within the project area, and maps or plats showing properties and lands on which releases, consents, or rights or interests in lands have been obtained;

(c) Obtain and deliver to OSM releases, proper consent or the necessary rights or interests in lands, and other documents required by OSM for approval of the project, and in form and substance satisfactory to OSM;

(d) Furnish a certification in form and substance satisfactory to OSM that the releases, consents, or the necessary rights or interests in lands, are from all the legal property owners within the project area;

(e) Agree to indemnify and hold the Government harmless should any property owner within the project area make any claim for damage resulting from the work within the project area if releases, consents or rights or interests were not obtained from such property owner by the State or local authorities;

(f) Grant to the Government the right to enter upon streets, roads, and other land owned or controlled by the State or the local authorities overlying or adjacent to the project fire area, and to conduct thereon the operations referred to in the cooperative agreement and project contract, and agree to hold the Government harmless from any claim for damage arising out of the project operations to property owned, possessed or controlled by the State or
